🌐 ghezak-git.github.io/new-resume

I am an all-round web/backend developer and programmer with good knowledge of back-end techniques. I love structure and stand for quality in my work. I enjoy spending time fixing little details and optimizing web apps for better performance. Additionally, I thrive in team environments and enjoy collaborating with others to achieve common goals.

Experience

Junior Programmer at Cisa Solution Andalan

Dec 2020 - Nov 2021

- Maintain CRM applications (web-based) built with CodeIgniter 3, ensuring they are up-to-date and running smoothly.
- Create application project management tools (web-based) built with Laravel and React.js, focusing on user-friendly interfaces and efficient functionality.
- Ensure the performance, reliability, and scalability of web-based systems.
- Collaborate closely with team members to develop, high-quality applications.

Freelance Developer at NHT Solution

Dec 2023 - Mei 2024

- Developed an API for mobile applications using Golang and Laravel (with Vue.js), incorporating multi-tenancy features.
- Created both API and website components in Laravel and Vue.js, adding functionalities like location absence and global parameters, and handled bug fixes.
- Implemented Golang as a middleware bridge to connect a multi-domain Laravel website with a single mobile app and managed CI/CD development processes.

Fullstack Developer at Prawathiya Karsa Pradiptha

Dec 2021 - Now

- Maintained the Beyond App System, a web-based application for agents to call customers, built with CodeIgniter 2.
- Developed a web-based application for managing savings and loans in cooperatives, utilizing Laravel for the administrative interface and Lumen for the API backend.
- Developed an e-Materai API and a WhatsApp official API using Golang and Kafka, ensuring secure and efficient communication and integration with external systems.
- Developed the front-end of the e-Materai website with Next.js, focusing on a user-friendly interface and responsive design.
- Managed and maintained all applications, overseeing CI/CD processes on the server using GitLab CI/CD for smooth deployment and integration.

Education

University of Indraprasta PGRI

July 2016 - October 2020

- Bachelor of Engineering
- Develop an expert system application for diagnosing and managing oral diseases.

Skills

- PHP (Laravel & CI)
